Saturday Morning, Sept. 24, 1859

Poefry. From the New York Ecening Post. The Two Harvests, BY H. J. MACDONALD.

The wheat stands thick on many a northern field On miles of prairie gleams the abundant maize And for the stores that firm and orchard yield We pay to God our dues of thanks and praise We sow the seed that straightwar seems to sleep: Then comes the sun, the frost, and wind, and

rain; hen the appointed season comes, we reap h thankful hearts the increase of our gain

We plant, we water; man can do no more; The change begins from where our labors end; Our toil would leave us as we were before. Save for the aid of God, who is our friend. There's not the smallest blade of grass or corn Would bloom or blossom for our best endesver Without our help and knowledge they are born And so it shall be on this earth forever.

The ways of God, we see but where they lead; We cannot trace the workings of his plan; And as he rears the flowers that dress the mes So deals he with the noblest creature, man. We know the bud, and have not seen the flower And all ourgrowth we can but dimly see; We trust as to his guiding love and power, Secure in hope, though scant our knowledge be.

Faith, therefore, shall our restlessness confine Patience shall bear the storms that roun roll: In heaven we yet shall learn God's full design, And thank him for the harvest of the soul.

Miscellaneous.

The Bunk of England The buildings cover about three acres of ground. Many of its rooms are copied om the classic models of Greece and Rome. The employees number about one hundred thousand. Several of the officers reside in the bank. The notes redeemed each day are checked, cancelled and put away in boxes. After keeping them ten years, they are burned. The accumulation of the last ten years, now in the vaults of the bank, amount to three thousand millions of pounds; and yet any one of these notes can be referred to in a minute, and the history of its issue and its return given. The bank does all its own printing, and several presses are kept busy. Everything is done by machinery—the note is not touched by the pen before it goes out. I held in my hand yesterday one note for a million of sovereigns!

In the bullion room ingots of gold were piled up like cords of wood, and silver bars in vast mountains. The machines for detecting light coin, and for cutting them, are exceedingly curious and yet simple. Every banker's deposit is weighed, and all the light pieces cut nearly in two and returned next day. The system of the bank is as perfect and as exact as clock-work. And yet in spite of all precaution, some small forgery is almost daily detected. But since the great forgery committed by Axtell for \$360,000, the bank has not lost any very heavy sums; although in 1822 capital punish-ment for the crime was abolished, when the "old fogies" predicted that everybody "hard up" would turn forger.

In the specie department of the bank

there are bags and boxes of sovereigns and half sovereigns enough to make a miser mad; there are mountains of mint drops, for which millions are sighing and lying, and perpetrating all conceivable crimes I was asked to lift a big bag of sovereigns, and for once, I must confess, I felt a sovereign disgust for money .- Col. Fuller.

Paola. Paola, the county seat of Lykins county, is pleasantly situated near the junction o 'Wed" and another stream bearing the romantic cognomen of "Bull Creek." several new buildings are being erected for business houses on the public square, and the general appearance of them is creditable to the enterprise and taste of the young men engaged in constructing them. Not less than fifteen good dwelling houses have been erected during the last six months, and there are as many buildings under contract, as there are already built. A splendid two story Jail, at a cost of \$4,500 has been let and will be finished within one year from date .-Mr. Mansfield, the gentlemanly proprietor of the Union Hotel, has been enlarging his house to meet the wants of the public, and the accommodation now is all that can be desired; if you go that way be sure and give him a call. E. W. Robison, the County Clerk of Lykins county, informs us that lands can be bought in that vicinity from \$2 50 to \$10 per acre. Take it altogether, the prospects of Paola are very flattering, and we cheerfully extend to

her the right hand of fellowship.

The corn crop in this section of Kansa cannot be beat, and we have no fears that we shall hear the "children crying for bread." Squiresville, so called in honor of the efficient manager of the Kansas City and Fort Scott Stage Company, (A. Squires.) promises at no distant day to be a "town amongst towns," and we wish them a full measure of success .- Bates Co.

Iron Wealth of Missouri. The Missouri Geological Survey, volume one of their report, make the fol-lowing estimate in regard to ore in the celebrated iron region of that State: Iron Mountain, 228 feet high, covering 500 And by Druggists throughout the country genacres, one mass of specular ore weighing 230,187,275 tons; average yield at furnace fifty-six per cent, or 128,908,930 tons of pure iron. Pilot Knob, 13,972,773 tons of ore, or 7,000,000 tons of pure iron. These two deposits will furnish about 136,000,000 tons of iron, the ore of which all lies above the natural surface of the country, is easily mined and furnishes the best of metal. Railroad iron, seventy pounds to the yard, takes 123 tons to the mile, and all the railroads in the United States would take of that weight of rails about 3,500,000 tons of iron, or one-fortieth of the deposit above spoken of. And this is only the ore above the surface.

The age is splendid in its externalities. We have the most gorgeous up-holstery of civilization that has ever been woven since the world was made, the most splendid implements, the most gor-geous vehicles; but I do not think we have as true an inward life, as correct a conscience, as deep and thoughtful a heart as men of other ages have had; and one of the great things we need is to counterbalance this external tendency by coming back a little to the inward. And not only this, but we must remember that if we are living in the outward entirely, or exter-

of two, four, six and eight teams crossing at our ferry and passing through our city, en route for the prairies of Kansas. They bring with them their household furniture, and sometimes their agricultural implements. We noticed one train of six wag ons, which had threshers and reapers with them, bound for the back country.—E7-

FEVER AND AGUE! FOREMOST among the various remedies for this disease stands

DR. SHALLENBERGER'S ANTIDOTE. A few does will cure any ordinary case, and ONE DOSE invariably stops the chills. It contains nothing in the least degree hurtful to THE SYSTEM UNDER ANY URCUMSTANCES, and noverproduces the unpleasant effects that attend the use of quinine and other sgents in general use. It cures every form of the disease, and is the original and ONLY ANTIDOTE FOR MALARIA.

Read the following testimony: Read the following testimony:

GEO. W. GOODRICH, Esq., Attorney and General Land Agent, now of Granby, Newton county,
Mo., but at that time a resident of Neosho Valley. K. T., writes as follows:

"I am more than ever of the opinion that no
other one medicine socompletely meets the wants
of cur people as your pills. Last fall, in this
region, but one person in my knowledge escaped
the Ague. Many had it all through the winter,
and continued to have it this spring. I sold
eight bottles, all for the treatment of these almost
chronic case, and, it has given in every case the eight bottles, all for the treatment of these almost chronic cases, and, it has given in every case the most perfect satisfaction; and I believe the first dose has in every instance stopped the diseas.—Of these eight cases, permit me to give you the facts with regard to two of them: The first was that of a girl of fifteen years, who had the Ague badly all last fall—had remittent fever and dumb arms passed all without the first was the facts. badly all last fall—had remittent fever and dumb agine nearly all winter; and to this was super-added monthly irregularity. Knowing this, I hardly ventured to recommend the pills as I would in ordinary cases, but to my great aston-ishment and gratification the first dose stopped the fever, (remittent) and I supposed the other difficulty has also been removed, as the roses on her before faded cheeks seem to indicate fine health, which otherwise would hardly be the

case.
The other case is that of a young man living in the same family. He had the Fever and Ague badly, all last fall and winter—so he informs me: the first dose of the pills stopped it, and he has not lost an hour from his work since he began to take it. He has been splitting rails, hauling them out, and building fence ever since, and makes a first-rate hand at this laborious business. He now sais that ten dollars would be a small price for the benefit he has received.

April 25th, 1826. GEO. W. GOODRICH.

Westport, Mo., Jan. 20th, 1857.

We consider the prospect for the sale of your medicine here very flattering, and we shall, doubtless, be able to dispose of much larger quantity the coming season. We have notheard of a single case of failure. Infact, it has nearly thrown out of market every other preparation for the cure of Fever and Ague.

LEAVENWORTH CITY, KANSAS, DEALER IN DRUGS AND MEDICINES

PAINTS, OILS, VARNISHES, BRUSHES, Dres, Window Glass, Glass Ware. Perfumors, Soaps, Fine Ubewing Tobacco, Old Bourbo and Rye Whiskey, Medical Wines and Brandle Camphene, Burning Fluid, Lard and Whale Oi Stand, Side and Suspension Lamps. GENUINE PATENT MEDICINES.

NOTIONS, and a full Stock of STATIONERY Making the largest and most complete assertment of goods, in his line, in the Territory which he will sell to Physicians and Dealers generally, at the lowest CASH PRICES.

R. E. ALLEN. Leavenworth, Nov. 6, 1858,-tf.

> Marmiton Town Company. I unequalled by any Town Company in the Territory.
>
> The Company have just completed the largest Hotel in southern Kansas, being three stories high and containing twenty four large, commedious sleeping and sitting rooms. In addition to the hotel, the Company have built a large Storehouse, which will soon be well filled with all the commodities needed in a country like ours. A large number of carpenters are now at work erecting residences, shops, offices, &c. The Company offer great inducements to mechanics and others, wishing to locate. The town, from its central location, being the geographical center of Bourbon country, must always command an extensive trade and soon become an important town in southern Kansas, as it is surrounded by as GOOD PARMING LANDS as were ever tilled by the husbandman.
>
> CLAIMS.—Good and desirable claims can be

CLAIMS.—Good and desirable claims can be obtained in close proximity to town and timber. Marmiton is splendidly and must be healthfully located, being on a high rolling prairie.—It has beautiful streams of water washing its northern and southern limits. An excellent STEAM SAW AND GRIST MILL

CLIMATE.—Marmiton is situated in latitude 37° 30, and longitude, 17° 47 west from Washington. The Thermometer does not indicate a higher degree of heat than ninety, and never in the winter gets below zero. Farmers and Mechanics find no inconvenience in doing out-door work in the winter season. Cattle, hogs, sheep, etc., do well on the prairie during the entire year. There is always a pleasant breeze in the hottest days of summer, which makes the heat less oppressive than in many of the northern States. Lots will be sold at exceedingly low figures to persons desirous of building.

J. E. JONES, President.

HORATIO ENOWLS, Vice Pres't.

T. R. ROBENTS, See'y.
